STATE OF TENNESSEE

TREASURY DEPARTMENT
STATE CAPITOL
NASHVILLE, TENNESSEE 37243-0225

FileNet Software Developer

The Tennessee Department of Treasury impacts the lives of Tennesseans every day. We safeguard Tennessee taxpayer dollars, teach citizens to make financial decisions, manage approximately $50 Billion Dollar assets in house for the State of Tennessee pension fund, provide retirement coverage to State employees, and return abandoned property.

DESCRIPTION:

The Software Developer will assist the rest of the development team in creating new applications and supporting existing systems using FileNet and Datacap.

RESPONSIBILITIES:

- Completing various levels of documentation and adheres to appropriate procedures to support and prevent interruption of services for users, systems, and applications
- Participates in establishing change control and application performance monitoring processes and ensures use of same
- Provides on-call support as needed during non-business hours
- Monitors logs and reports for system integrity, identifies events that could delay processing; handles/escalates, as necessary
- Tracks and migrates FileNet and Datacap changes through development, test and production environments to ensure implementation procedures
- Collaborates with STS and vendors/contractors to ensure the latest fixes and functional patches are implemented in a timely manner
- Monitors STS fail-over of servers in case of disaster recovery
- Conducts workflow analysis and develops reports

MINIMUM QUALIFICATIONS:

- Graduation from an accredited college or university with a bachelor's degree
- Three years of experience in any one of the following areas: (1) applications, systems, or network programming involving .Net and/or Java; or (2) systematic analysis of overall work processes for business or information systems; or (3) support of enterprise application software
